Brindha Chinnasamy

Full Stack Developer

Tirupur, India brindhachinasamy99@gmail.com +91-7558125544

LinkedIn: https://www.linkedin.com/in/brindha-chinnasamy-64b607256/

Tech Stack: Python | C# | .NET | Java | React.js | JavaScript (ES6) | REST APIs | Oracle SQL | MySQL | AWS | Docker | Kubernetes

EXECUTIVE SUMMARY

Results-driven **Full Stack Developer with 4+ years of experience** designing and developing secure, scalable, and high-performance enterprise applications using **Python, C#, .NET, Java (Spring Boot), and modern frontend technologies**. Experienced in building **RESTful APIs, microservices, and database-driven systems** using Oracle and MySQL.

Strong expertise in **JavaScript, TypeScript, AJAX, and React** for responsive user interfaces. Skilled in **cloud-native development on AWS, containerization using Docker, and CI/CD automation**. Recognized for fixing critical security vulnerabilities, optimizing backend performance, and delivering scalable enterprise solutions.

Experienced in leveraging AI-assisted development tools such as GitHub Copilot and prompt engineering techniques.

TECHNICAL SKILLS

Programming Languages: Python, C#, Java, JavaScript, TypeScript

Backend Frameworks: ASP.NET Core (.NET), Django, FastAPI, Spring Boot

Frontend Technologies: HTML5, CSS3, JavaScript, AJAX, React, jQuery, Bootstrap

API & Architecture: REST APIs, Microservices Architecture

Databases: Oracle SQL, MySQL, SQL Server

Cloud & DevOps: AWS, Azure, Docker, Kubernetes, Git, CI/CD Pipelines

AI Development Tools: GitHub Copilot, Prompt Engineering, AI-assisted coding

Development Tools: Visual Studio, IntelliJ IDEA, PyCharm, VS Code

WORK EXPERIENCE

Software Engineer Consultant

UD Trucks India Pvt. Ltd. (via TEKsystems) | Oct 2023 – Present *Bengaluru, India*

- Developing and enhancing enterprise applications for **vehicle performance analysis systems** using Python, JavaScript, Oracle SQL, and REST APIs.
- Implemented **security fixes including SQL Injection prevention and XSS mitigation** across legacy modules.
- Built new features for the **Brake Endurance Tool**, including **RPM calculation, maximal mass computation, and brake torque interpolation logic**.
- Optimized Oracle database queries improving backend performance and reducing execution time for complex operations.
- Collaborated with cross-functional teams to deliver stable releases and support **RHEL system upgrades**.
- Received recognition including **Break Endurance Award, Vulnerability Fix Award, and RHEL Upgrade Recognition**.

Associate Software Engineer

First Advantage Global Operating Center Pvt. Ltd. | Apr 2021 – Jul 2023 *Bengaluru, India*

- Developed and maintained full-stack modules using **Java, Python, .NET, and MySQL** for background verification systems.
- Built **secure and scalable RESTful APIs** to automate verification workflows.
- Improved UI responsiveness using **JavaScript, jQuery, and AJAX**.
- Integrated **third-party APIs** and optimized backend logic improving system performance.
- Participated in **Agile development processes**, including sprint planning, code reviews, and deployments.
- Resolved production issues ensuring **high system reliability and availability**.

KEY PROJECTS

Vehicle Performance Analyzer

Tech Stack: Python, FastAPI, Oracle SQL, JavaScript

- Developed backend APIs to calculate **engine RPM and maximal mass based on vehicle configuration parameters**.
- Implemented **torque interpolation algorithms** for brake performance analysis.
- Integrated backend with **Oracle SQL database** for retrieving vehicle configuration data.
- Built dynamic frontend interactions using **JavaScript and AJAX** for real-time calculations.

Task Management API System

Tech Stack: C#, ASP.NET Core, SQL Server, REST APIs

- Developed a **RESTful API-based task management system** using **ASP.NET Core and C#**.
- Implemented CRUD operations for managing tasks, users, and project workflows.
- Designed relational database schema using **SQL Server**.
- Implemented **JWT authentication and role-based authorization** for secure access.
- Designed scalable **RESTful API** architecture following industry best practices.
- Integrated **API** endpoints for task creation, updates, status tracking, and reporting.

Developer Portfolio Website

Tech Stack: React.js, JavaScript (ES6), HTML5, CSS3

- Designed and developed a **modern responsive portfolio website using React** to showcase professional experience, technical skills, and projects.
- Built reusable UI components and structured the application using **React component-based architecture**.
- Implemented dynamic sections for **skills, experience, and project highlights**.
- Used **JavaScript and CSS for interactive UI elements and responsive design**.
- Optimized the website for **mobile responsiveness and cross-browser compatibility**.

EDUCATION

- **Master of Business Administration (MBA) – Information Technology & Systems Management**
  NMIMS (Narsee Monjee Institute of Management Studies), Mumbai, India | CGPA: 7.8 | Graduated: 2025
- **Bachelor of Engineering (B.E.) – Electronics and Communication Engineering**
  KPR Institute of Engineering and Technology, Coimbatore, India | CGPA: 8.2 | Graduated: 2021
